SUMMARY

Automation and AI-agent engineer who designs and operates production systems for real clients, including a multi-tenant WhatsApp chatbot and customized CRM. Combines hands-on TypeScript, Python, workflow automation, self-hosted infrastructure, and multi-agent orchestration with direct experience operating an Indian financial-services business. Electrical-engineering training and infrastructure project coordination add disciplined QA, documentation, and field-delivery experience.

CORE SKILLS

AI and Automation: n8n, multi-agent orchestration, Claude Code, Codex CLI, MCP configuration, Ollama, prompt and workflow design

Web and Data: TypeScript, JavaScript, React, Next.js, Python, FastAPI, SQL, PostgreSQL, Supabase, hand-written RLS policies

Infrastructure and Quality: Docker, Docker Compose, Cloudflare Pages, Wrangler, Playwright, pytest, gated review workflows

Client and Financial Operations: Live-client SaaS operations, lending and ledger operations, technical documentation, field-team coordination

SELECTED PROJECTS & OPERATIONS

Auretris and Kuanli — Live WhatsApp Automation and CRM

- Operate Auretris, a production n8n workflow set that answers prospective-student FAQs and routes leads for an education consultancy and a second client, Skinitutes.
- Customized, extended, and operate Kuanli, an open-source CRM fork using Next.js, TypeScript, Tailwind, self-hosted Supabase/Postgres, hand-written RLS migrations, Docker Compose, and Ollama.
- Published a sanitized Auretris architecture and operations overview; production workflows, client data, credentials, and deployment configuration remain private.

Multi-Agent Build and Orchestration Systems

- Designed and operate an original risk-graded R0–R5 workflow that routes drafting, architecture review, implementation, and solution review across Claude Opus/Sonnet and Codex.
- Created custom Claude Code skills and a single-writer bridge connecting Claude Code, Codex CLI, and an OpenSEO MCP source through ask, review, and implement modes with durable run logs.

Financial-Services and Business Operations

- Operate an Indian NBFC with direct exposure to lending, ledger operations, and the regulatory environment for non-banking financial companies.
- Specified a planning-stage, ledger-first WhatsApp financial assistant for the NBFC's existing Excel workbook, with strict read-only and no-auto-write safety boundaries.

PROFESSIONAL EXPERIENCE

Project Coordinator, Electrical Infrastructure | InfiSol Technical Services Ltd.

Vancouver | May 2024–September 2025

- Produced AutoCAD pathway and routing designs for commercial and municipal FTTN/FTTH projects using site-survey information.
- Prepared material take-offs, performed drawing QA, and coordinated field teams during installation and commissioning across projects in Vancouver, rural Alberta, and Vancouver Island.

Design Team Admin & Mechatronics Support | UBC Baja

September 2021–August 2023

- Maintained documentation, timelines, and revision control for a 20-plus-member electrical sub-team.

EDUCATION & CREDENTIALS

Bachelor of Applied Science, Electrical Engineering, University of British Columbia — conferred May 2024

MBA candidate, Lovely Professional University — in progress, expected 2027

Engineer-in-Training, Engineers and Geoscientists BC — 2024–present

Canada work authorization: Open Post-Graduation Work Permit valid through June 6, 2027
