SUMMARY

Automation and AI-agent engineer who designs and operates production systems for real clients and businesses. Experience spans n8n workflows, agent orchestration, MCP tooling, PostgreSQL security policies, Docker-based self-hosting, and Cloudflare deployment. Brings a UBC electrical engineering foundation, EGBC Engineer-in-Training credential, and direct business-operations experience to workflow discovery, implementation, testing, and delivery.

CORE SKILLS

Agent Systems: Multi-agent orchestration, MCP configuration and troubleshooting, prompt engineering, role-based Claude Opus/Sonnet and Codex routing, Hermes administration

Automation: n8n production workflows, WhatsApp FAQ and lead-routing automation, cron scheduling, sandboxed execution, custom Claude Code skills

Data & Applications: PostgreSQL, Supabase, hand-written RLS migrations, SQLite, FastAPI, SQLAlchemy, Pydantic, Next.js, React, Astro

Delivery: Docker/Docker Compose, Cloudflare Workers/Pages/Wrangler, Python, TypeScript/JavaScript, SQL, Playwright, pytest

SELECTED PROJECTS & OPERATIONS

Auretris & Kuanli — WhatsApp AI Chatbot and CRM Operations

- Built and operate an n8n-based WhatsApp AI chatbot that answers prospective-student FAQs and routes leads for two live production clients.
- Customized, extended, and operate an open-source CRM fork using Next.js, TypeScript, and self-hosted Supabase/PostgreSQL with hand-written RLS migrations and Docker Compose.
- Maintain a sanitized public Auretris architecture and operations overview while keeping production workflows, client data, credentials, and deployment configuration private.

Hermes Runtime & Multi-Agent Build Pipeline

- Administer an always-on agent runtime built on the open-source Hermes Agent, with multiple profiles, cron scheduling, and Docker/Singularity-sandboxed code execution.
- Designed and operate an original risk-graded review and approval pipeline that routes work across Claude Opus/Sonnet and Codex by role, supported by custom skills and MCP integrations.

Skeure Education — Business Operations & AI Tooling

- Operate a forked AI-ops starter kit as the operational hub for a live education-consulting business and deploy its Astro, TypeScript, and Tailwind site through Cloudflare Pages.
- Developed original Claude-to-Codex orchestration tooling with ask, review, and implement modes, a single-writer lock, durable run logs, and an MCP-based SEO data source.

PROFESSIONAL EXPERIENCE

Project Coordinator, Electrical Infrastructure | InfiSol Technical Services Ltd.

Vancouver, BC | May 2024–September 2025

- Coordinated AutoCAD pathway and routing design, site-survey interpretation, material take-offs, and drawing QA for commercial and municipal fiber-optic FTTN/FTTH projects.
- Coordinated field teams during installation and commissioning for the Granville-Broadway upgrade, rural Alberta backbone expansion, and Vancouver Island fiber-backbone work.

Design Team Admin & Mechatronics Support | UBC Baja

September 2021–August 2023

- Maintained documentation, timelines, and revision control for an electrical sub-team of more than 20 members.

EDUCATION & CREDENTIALS

Bachelor of Applied Science, Electrical Engineering, University of British Columbia — conferred May 2024

MBA candidate, Lovely Professional University — in progress, expected 2027

Engineer-in-Training, Engineers and Geoscientists BC — 2024–present

Canadian work authorization: Open Post-Graduation Work Permit valid through June 6, 2027; authorized to work for any employer in Canada.
