## SUMMARY

Automation and AI-agent engineer who maps business workflows, selects agentic or deterministic approaches, and operates the resulting systems. Runs production automation for real clients, designs multi-agent orchestration and gated delivery pipelines, and brings an electrical-engineering foundation plus direct business-operations experience.

## CORE SKILLS

**AI & Agent Systems:** Multi-agent orchestration, n8n, MCP, Claude Code skills, Ollama, prompt engineering

**Languages & Frameworks:** Python, TypeScript/JavaScript, SQL, Next.js, React, Astro, FastAPI, SQLAlchemy

**Data & Quality:** PostgreSQL, self-hosted Supabase, hand-written RLS migrations, Playwright, pytest, accessibility testing

**Cloud & Infrastructure:** Cloudflare only—Workers, Pages, Wrangler, and Tunnel; Docker and Docker Compose; no AWS/GCP/Azure experience

## SELECTED PROJECTS & OPERATIONS

### Auretris and Kuanli — Client Automation and CRM Operations

- Designed and operate Auretris, a live, multi-tenant n8n WhatsApp AI chatbot that answers prospective-student FAQs and routes leads for an education consultancy and a second client, Skininstitutes.
- Customized, extended, and operate Kuanli, a fork of the open-source ArnasDon/wacrm CRM, using Next.js, TypeScript, Docker Compose, Ollama, and self-hosted Supabase/Postgres with hand-written RLS migrations.
- Published a sanitized Auretris architecture and operations overview; production workflow exports, client data, credentials, and deployment configuration remain private.

### Multi-Agent Build and Delivery Pipelines

- Designed and operate an original R0–R5 review and approval workflow that routes work across Claude Opus, Sonnet, and Codex by role, supported by authored Claude Code skills.
- Designed and operate the Pantheon automated build pipeline that produced a FastAPI travel planner and PocketBase PWA under a formal three-gate protocol covering security, race conditions, seed integrity, and accessibility.

### Skeure Education — Business and AI Operations

- Operate Skeure Education and its AI-ops hub, which customizes an open-source AIS-OS fork and adds original Claude Code–Codex CLI orchestration with ask, review, and implement modes, a single-writer lock, and durable logs.
- Deploy and maintain its Astro 7 and TypeScript website on Cloudflare Pages through Wrangler.

### Hermes Agent Runtime — Always-On Agent Operations

- Administer an open-source Hermes agent runtime with multiple profiles, cron scheduling, Docker/Singularity sandboxes, kanban task orchestration, and MCP-based build orchestration.

## PROFESSIONAL EXPERIENCE

### Project Coordinator, Electrical Infrastructure | InfiSol Technical Services Ltd.

Vancouver, BC | May 2024–September 2025

- Produced AutoCAD pathway and routing designs, material take-offs, and drawing QA for commercial and municipal FTTN/FTTH projects using site-survey inputs.
- Coordinated field teams during installation and commissioning across the Granville-Broadway, rural Alberta, and Vancouver Island infrastructure projects.

### Design Team Admin & Mechatronics Support | UBC Baja

September 2021–August 2023

- Managed documentation, timelines, and revision control for a 20-plus-member electrical sub-team while providing mechatronics support.

## EDUCATION & CREDENTIALS

**Bachelor of Applied Science, Electrical Engineering, University of British Columbia** — conferred May 2024

**MBA candidate, Lovely Professional University** — in progress, expected 2027

**Engineer-in-Training, Engineers and Geoscientists BC** — 2024–present

**Open Canadian Post-Graduate Work Permit** — valid through June 6, 2027; authorizes work for any Canadian employer
